Subject: San Jacinto Daily Reports

Gary – Please see the attached daily reports for Thursday, March 24th, and Friday, March 25th. The security cameras are fully installed at this point. I will be providing a memo on the contact protocol for the security system this week. We will also be coordinating with Benchmark to add additional rock at the two deeper 1 ft. X 1 ft. areas with thin cap materials that were not accessible by the pontoon barge last week. They will be providing a larger vessel to complete the maintenance in those areas, and I will keep you informed on our schedule and progress.

Best regards,
David
